

OVVO DH1 with RD12

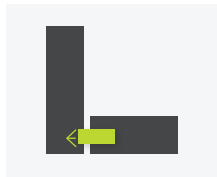

Drilling Housings

The OVVO DH1 housing connector is designed to work in the face of panels using standard drilling techniques, in panels of thickness from 15mm and above and in a wide range of materials.

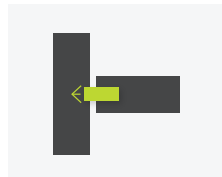

The OVVO DH1 eliminates depth control, works directly in standard high speed processing lines and enables panels to be simply snapped together. The DH1 works with both the RD12 and RN12 OVVO Connectors to form permanent joints.

Available in boxes of 200 and 1000 sets.

For Joints:

90° Degree Joint

T Joint

Required Tools:

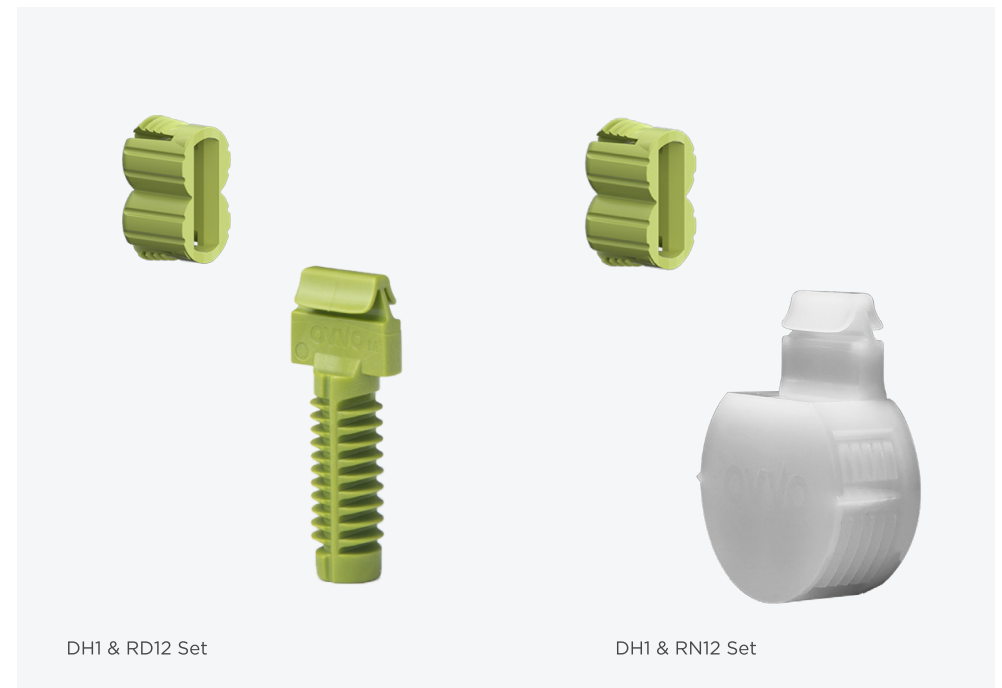

Drill Bit 8mm

Drill Bit 10mm

25mm Drill Bit
