OVVO DH1 + RD12

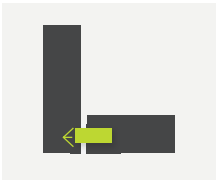
Drilling

The OVVO DH1 + RD12. Panels can be joined permanently using standard inline drilling processes. The resulting invisible joint when used with the accompanying dowel means that the panels cannot be assembled incorrectly, saving time and resources in final assembly.

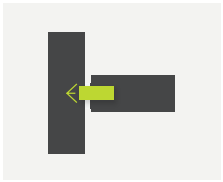
it is designed to work in panels of thickness from 15mm and above, in a wide range of materials. The OVVO DH1+RD12 connector set allows for a simple snap fit. The patented fir tree legs are designed to fit into industry standard drill holes for efficient panel processing.

Available in box of 200 and 1000 sets

For Joints:



90° Degree Joint

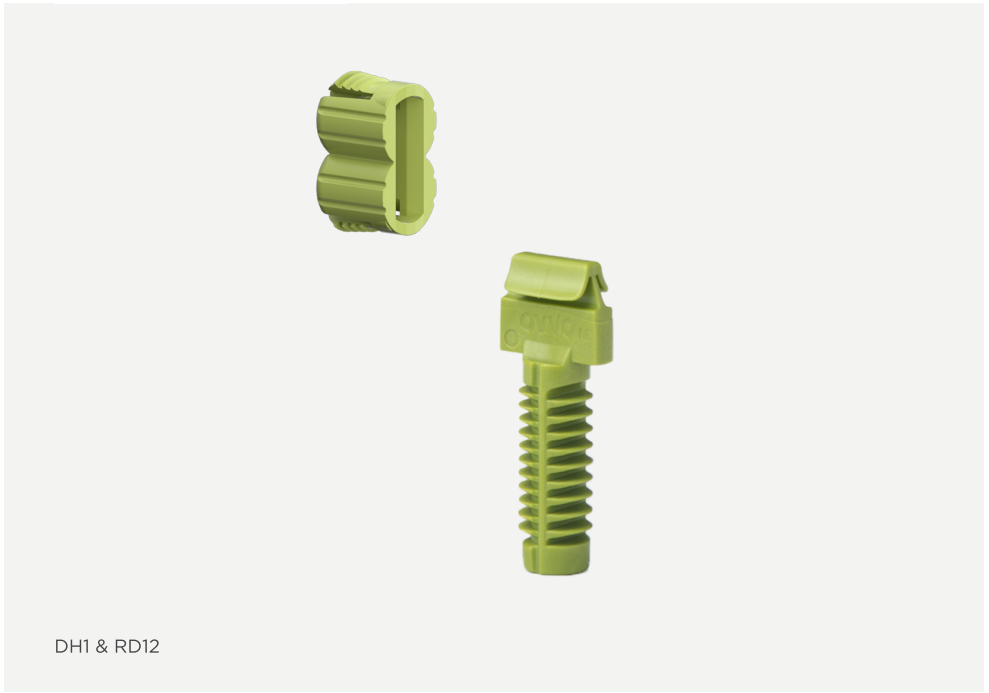


T Joint

Required Tools:

Drill Bit 8mm

Drill Bit 10mm



DH1 & RD12

OVVO
