

OVVO OD640

Permanent Dowel Connector

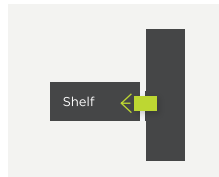

OVVO Dowel connector is designed to be used anywhere where you are using standard dowels and can be used in panels of thickness from 10mm and above, in a wide range of materials. The patented fir tree legs are designed to fit into industry standard 6mm bore holes, for the most efficient panel processing. OVVO Dowel connector enables panels to be simply pushed together, saving time - eliminating clamping, without the use of tools, screws or glue.

Available in box of 500 and 1000

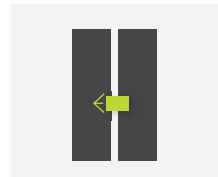

For Joints:

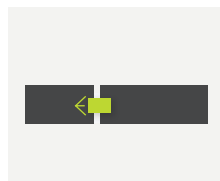

90° Degree Joint

Shelf Joint

Face to Face Joint

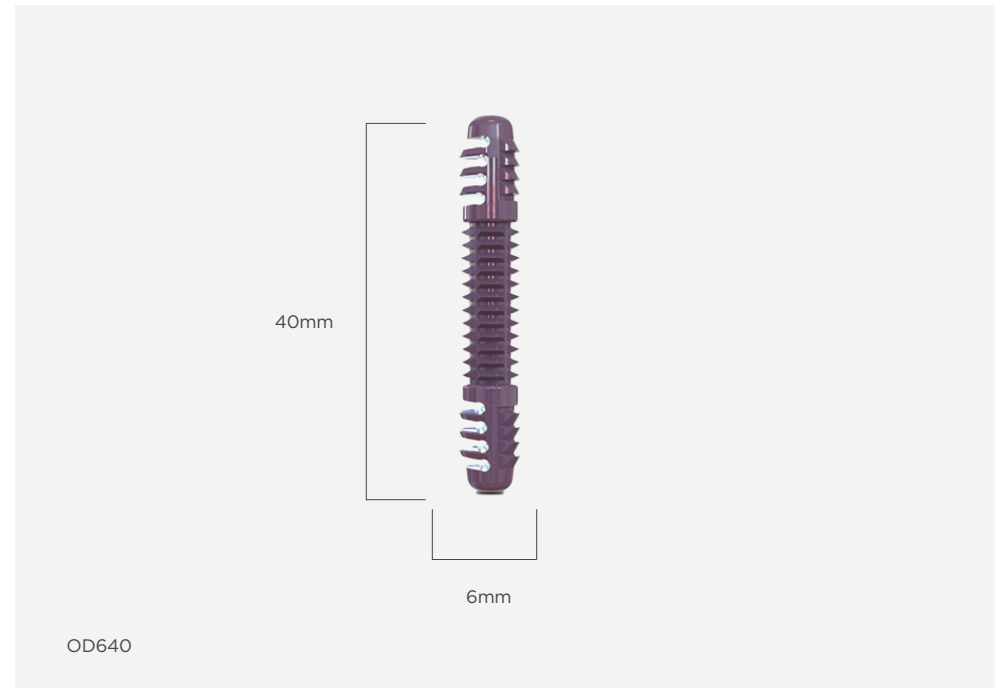

End To End Joint

Required Tools:

Drill Bit
